

# ARCHIMATE® 3 TRAINING

## WHAT IS ARCHIMATE® 3.1?

ArchiMate® 3.1 is The Open Group's open and independent modelling language for enterprise architecture that provides instruments to enable enterprise architects to describe, analyse, and visualize the relationships among business domains in an unambiguous way.

The ArchiMate® 3.1 Specification supports modelling throughout the TOGAF® Architecture Development Method (ADM). Improvements in Version 3.1 include the addition of a value stream element, the introduction of a directed notation for association, and further formalization and refinement of the rules for deriving relationships.

## COURSE DESCRIPTION

ArchiMate® 3 Training is a three-day, The Open Group accredited course. All aspects of the ArchiMate® standard are discussed. Examples and exercises are used throughout the course to make the theory practical.

## COURSE OUTCOME

Delegates completing the course will understand the structure and meta-model of the ArchiMate® language and will be able to identify and use the appropriate ArchiMate® viewpoints when modelling.

## COURSE HANDOUTS

- Printed course manual
- Electronic Visio templates/stencils
- Level 1 & 2 ArchiMate exam vouchers

## PREREQUISITES

Some experience with modelling techniques, Understanding of basic EA concepts, familiar with IT and can use basic Visio.

## COURSE OUTLINE
