

# TOGAF® 9 LEVEL 1 & 2

2

## INTRODUCTION

TOGAF® 9 is a detailed method and set of supporting resources for developing an enterprise architecture (EA). It has been built up over several years through open participation and collaboration between leading industry practitioners.

TOGAF® 9 provides an Architecture Development Method, Content Framework and Capability Framework that can be used as the basis for creating an organisation's EA. It also provides a variety of tools, building blocks and resources that facilitate the process and enable the design and development of EA across the business, data, application and technology domains.
